FLEA AND TICK PREVENTION

Here at H.A.L.O. Rescue we make every effort financially possible to prevent the spread of fleas and ticks throughout the shelter. We have a monthly service to treat for these and other pests as well as regular bathing of the dogs. Unfortunately it does **NOT** include the use of monthly treatments like Comfortis or Advantage. These products are costly and the shelter just does not have the funds available. We **CANNOT** guarantee that a dog or cat will be free of fleas and/or ticks when leaving this facility. For this reason we offer and strongly recommend a 3 step approach to preventing and maintaining your home against fleas and ticks:

Please initial by the services you would like:

- Have us apply an application of Advantage on your new pet before it arrives at your home (single application which lasts 1 month \$16.00; 6 month supply starts at \$62.00 depending on weight).
- OR-**
- DOGS ONLY – A single dose of Comfortis given on day of pick-up. Kills fleas within 30 minutes. Lasts up to 30 days (This is what we recommend most). Starts at \$18.00 based on weight.
- AND-**
- Have us bathe or groom your new pet prior to the home visit (starting \$20.00 depending on size)
- AND-**
- Have H.A.L.O. Rescue's Pest Patrol come to your home for a free estimate for pest control services.

If you choose not to utilize these flea/tick preventative measures, please bathe your dog immediately after the arrival into your home. Eliminating fleas and ticks from a home can be costly, but preventing them all together is not. If you have any questions, please do not hesitate to ask. Thank You!

Signature Date I have read and understand the importance of flea and tick prevention.
